## About Me

Passionate full stack developer focused on performance, usability, and maintainable code. Experienced with React, Next.js, Node.js, and testing frameworks like Playwright and Jest. Enjoy contributing to open source and delivering scalable solutions in fast-paced environments.

## Personal skills

- Effective Communication
- Collaboration & Teamwork
- Problem Solving
- Adaptability & Flexibility
- Time Management
- Pair Programming
- Code Reviews

## Work Experience

- **UpLeveled GmbH**  
Full Stack Web Developer 01/2022 - 06/2025
  - Developed company and student profile pages using React and Next.js on the UpLeveled recruiting platform
  - Maintained and optimised UpLeveled libraries and tools to enhance performance and functionality
  - Collaborated with designers and product leads to deliver features improving user flow
  - Improved the UpLeveled learning and recruiting platform with Jest and Playwright
  - Mentored over 200 students through real-world web development projects and code reviews
  - Delivered ~100 lectures in English on topics ranging from Node.js to Expo React Native
- **UpLeveled GmbH Full Stack Web Development Bootcamp** 08/2021 - 12/2021
  - Graduated from the full-stack bootcamp focused on modern web development with React, Node.js, and PostgreSQL
  - Strengthened core programming skills and applied them in real-world projects
  - Built an item exchange platform using Next.js and TypeScript
- **Business Operations Specialist**  
Wiener Städtische Versicherung AG 01/2010 - 5/2021
  - Managed one of Austria's top 5 vehicle registration offices
  - Led B2B and B2C communications, maintaining key client relationships
  - Oversaw office operations and coordinated team activities

## Side Projects

- [www.zul24.at](#), optimised with Internationalization (i18n) Routing
- [www.ritaandtherugs.at](#), early stage, full redesign and implementation of e-commerce functionality

## Tech Stack

- Languages & Frameworks: TypeScript, React, Next.js, Expo React Native, JavaScript, Vue.js
- Styling & UI: Tailwind CSS, Styled Components, Emotion, CSS Modules, SASS, Bootstrap, shadcn/ui, DaisyUI
- Backend & Databases: Node.js, PostgreSQL, Prisma, RESTful API, GraphQL
- Testing & Dev Tools: Playwright, Jest, Cypress, Puppeteer, Git, GitHub
- UX & Accessibility: User-Centered Design, WCAG Accessibility

## <> Open Source Contributions

---

### Expo

- Improved project reset script to clean up temporary files ([#34200](#))
- Fixed TypeScript entry in deployment config for Vercel ([#30421](#))
- Updated documentation for Node.js v22 compatibility ([#35133](#))

### Vercel/Next.js

- Removed deprecated config from MDX docs ([#69609](#))

### Kent C Dodds/MDX Bundler

- Added guide for using shared components in nested MDX ([#227](#))

## Education

---

•	<b>FH Technikum Wien</b>	2009 - 2010
	Industrial and Mechanical Engineering (3rd semester)	
•	<b>TU Wien</b>	2007 - 2009
